Editorial

We have spent many years wandering through the halls of this school preparing ourselves for the future. Being seniors, we should now be ready to meet the world face to face.

We have goals that we have set and ideals that we would like to reach. We must remember that we can only reach these goals if every one of us adopt the simple truth that "I can save the earth." If we do this we will then realize how much we can achieve together.

We as Seniors have spent many years as students in West Bridgewater High School. In this time we have been taught by many teachers, but there is one that stands out; that is you, Mr. Morgan. You have not only helped us in our studies and activities, but also have been a friend to all.

Thank you for sharing your knowledge and advice with us. We deeply appreciate it.

A dedicated teacher.

A good sport.

Even teachers can get bored!

Dirty books in school!

During the past twelve years you have been developing attitudes, acquiring value systems, assimilating knowledge and establishing vocational desires that will decide the life style you will follow in your adult life.

You have been building for a positive life, one that will contribute significantly to solving contemporary problems. As sincere and determined young adults you will find yourselves responsible for the preservation of our heritage for your benefit and that of posterity. It is you who must provide direction and leadership necessary to reach humanitarian goals.

My experience with you, members of the Class of 1972, has been limited at the time I am writing this message. In the short time we have worked together I am favorably impressed with your acquired knowledge, wisdom and acceptance of responsibility. You have indicated that you are not only willing but able to accept the challenge confronting you. For some of you this will be going on to higher education, for others the necessity of serving your country and for many the beginning of fulfilling vocational goals.

Undoubtedly, you have contributed greatly to the West Bridgewater school system. As you leave, pause for a moment to remember the first grade teacher who started your formal education, the junior high school teacher who was your confidant when troubled and your senior high school teacher who encouraged you toward your present goals.

Most of all show your appreciation to your parents for their enduring faith in you and for their love of which they have given so freely. Congratulations, best of luck and may God bless you as you lead a long and wholesome life.

Sincerely yours,

S. Erick Benson

To the Class of 1972

Being new to West Bridgewater Jr.-Sr. High School, I feel I am still "getting to know you", and yet in the time I've been your Vice Principal, the school and many of you have become familiar to me.

I congratulate every member of the Class of 1972 and wish for each of you many years of healthy, rewarding lives honorably lived, and the ability to function purposefully in a complex changing society. Hopefully, your high school experience has helped you develop these characteristics.

Yours sincerely,

Robert F. Gazda

It is only human for each of us to think that the problems immediately facing us are possibly the greatest we have ever encountered and perhaps, in many cases, insurmountable. In a certain number of instances they are, but these represent a very small percentage of the total. Thus we are left with a very large number that can and will, if we make the effort, be overcome.

Assistance in solving or answering many of these problems can come through the education you have already received and other schooling or programs you can turn to in future years. Don't stop with only the first twelve years, continue studying in any one or more of the many exciting career programs presented in schools, hospitals, industry, colleges, government, and many more agencies. If you wish help in locating opportunities for further study our high school guidance department or my office is always ready to serve you.

Despite the criticisms levelled at American public education in recent years, we have available unquestionably, the finest teachers, programs, facilities, and equipment, ever provided for the young people and adults of a nation anywhere in the world. But it is only of service when and if people make use of it.

Good luck and happiness in future years.

Donald A. Fisher

We are confronted by a new age.
An age of honesty and awareness,
Of radicalism and revolution,
Of community and commitment,
Of liberation and illumination.
The age which is our dream,
And which has been the dream of our ancestors,
An age which has been known by many names,
Past and Present,
Paradise, Utopia, Aquarius.

"Harmony and understanding, Sympathy and trust abounding, No where falsehoods or derisions, Golden living dreams are visions, Mystic crystal revelation, And the mind's true liberation: Aquarius, Aquarius!"

We have seen this new age greeted With enthusiasm and boredom, With revolution and reaction, With sympathy and apathy, With concern and confusion, With hope and despair, With sincerity and inspiration, With tension and turmoil.

And here we are; Here is our response, It is positive and negative, Excited and dull, Full and empty, Violent and listless, And Unique.

Reflections of My Life

The changing of sunlight to moonlight, reflections of my life, Oh how they fill my eyes. The creepings of people in trouble, reflections of my life.

All my sorrows, sad tomorrows, Take me back to my own home. All my cryings, all my sighings, Feel I'm dying, dying, Take me back to my own home.

I'm changing, arranging; I'm changing, I'm changing everything, Oh everything around me. The world is a bad place, a terrible place to live.

All my sorrows, said tomorrows. (oh my cryings)
Take me back to my own home. (oh no,no,no,no)
All my cryings, all my sighings. (Oh my cryings)
Feel I'm dying, dyings,
Take me back to my own home. (Take me back).

Old man lying by the side of the road, lories rolling by Blue moon sinking from the weight of the load And the buildings scrape the sky, Cold wind ripping down the alley at dawn And the morning paper flies, Dead man lying by the side of the road With daylight in his eyes, Don't let it bring you down — it's only castles burning, Find someone who's turning and you will come around. Blind man running thru the light of night With an answer in his hand Come down to the river of sight And you can really understand Red lights flashing thru the windows in the rain, Can you hear the sirens moan? White cane lying in the gutter in the lane, If your walking home alone Don't let it bring you down — it's only castles burning, Find someone who's turning and you will come around. Don't let it bring you down, it's only castles burning. Just find someone who's turning And you will come around.

CONSERVA GROUP

High School Conservation Group Involved in Ecological Problems

WEST BRIDGEWATER. — There is a group at West Bridgewater High School — quite a large group — who definitely believe in confrontation and demonstration - but there is no violence involved as confrontations are with ecological problems and demonstrations strictly emphasize the energy and enthusiasm that young people can provide when thoroughly believing in projects.

I should have had that!

First time at R. Field?

One of her few serious moments.

Ohh! Ssshhh-----

Our loss was Lakeville's gain

Well, if you're going to be that way, O-K, we'll go for an ice cream.

Swung and missed, strike three.

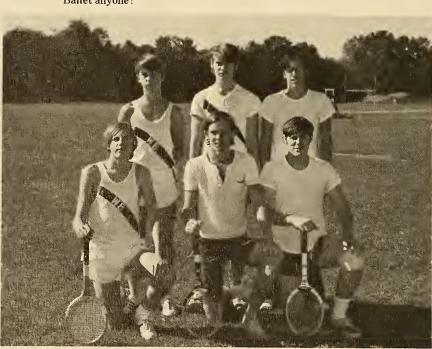

I should have used a 9 iron.

Ballet anyone?

We would like to take this little corner of the yearbook to express our sincere gratitude for the quality and ability of the many students whom we have employed from the West Bridgewater schools and others over our nearly thirty-five years in farming and the roadside business. Over two hundred boys and girls have made our operation a pleasant place in which to work and trade. Their versatility and honesty and perseverance has contributed to our success. We wish them all, past, present, and future the very best of life's treasures. We know that they will take to their various "walks" in life the same qualities that made their association with us so

God speed to you, our farm alumni, and your schoolmates as you go to face the great challenges of life!

Mr. and Mrs. Charles Perkins

We the Senior Class wish to sincerely thank:

Miss Anne Davenport for her patience, understanding, and endurance (well, at least she tried);

Mrs. Kent for her advice and help concerning business matters;

Mr. Michael Marston and Dodge-Murphy Photographers, Inc. for their co-operation in meeting deadlines;

Mr. Robert Murphy for his aid and consultation;

John Vaughn and Robert Sampson for obtaining forty ads which greatly helped pay for this book;

The Administration and the Faculty of this school for patiently accepting the constant interruptions;

And we thank the following for their loyalty and hard work; these people acted as typists, art editors, proof readers, and layout planners: Pam Keith, Kathy Souza, Bob Sandord,
Tomomi Goto, Rick D'Ambrosio, Rick Heath, Jackie Kemp, Carol Perkins, and Barbara Edsor (Now aren't we modest).

Without the help of these people our memories would have faded away instead of remaining vivid through pictures of specific events and people.
